EDUCATION

B.Tech in CS Engineering
JK Lakshmipat University, Jaipur
2024 – 2028

SKILLS

· PROGRAMMING & SCRIPTING
C, Python, JavaScript, Bash

· WEB DEVELOPMENT
HTML, CSS, Markdown, JSON, React.js, Node.js, Express.js, Tailwind CSS, Bootstrap, FastAPI

· DATABASES
MySQL, PostgreSQL, SQLite, MongoDB

· DATA SCIENCE & AI/ML
PyTorch, Scikit-learn, NumPy, Pandas, Matplotlib, Plotly, Jupyter, Anaconda

· DEVOPS & TOOLS
Git, GitHub, Vercel, Netlify, Render, GitHub Actions, Postman

· SOFT SKILLS
Leadership, Teamwork, Problem-Solving, Public Speaking

ACHIEVEMENTS

- State Level Open AI Hackathon Jan 2026
- Business Pitch B-Plan, IIT Jodhpur Jan 2026
- Business Darbar, IIT Jodhpur Jan 2026
- DBMS Certification, Infosys Dec 2025
- Most Innovative Pitch, PitchFest 2K25 (ICFAI University) Oct 2025
- 4th Position, House of Hack (Hackingly) Sep 2025
- Certified Web Developer, WsCube Tech Jan 2025
- Gold Medalist, West Zone Archery

PROFILE

> CSE undergraduate passionate about building scalable, impactful tech products that solve real-world problems. Experienced in transforming ideas into prototypes, refining them through feedback, and deploying production-ready solutions. Dedicated to continuous learning and leveraging emerging technologies to drive meaningful digital transformation.

EXPERIENCE

Tech Lead *@ Vibe* — AUG 2025 – PRESENT
Leading technical development of a hyperlocal social discovery platform. Architecting privacy-first connections based on skills and interests using modern web stacks.

Tech Lead *@ Div* — OCT 2025 – PRESENT
Developing a decentralized IP engine converting creative works into liquid tokens with automated, compliant royalty distribution mechanisms.

Game & Web Developer *@ Punogames* — JUNE 2025 – AUG 2025
Enhanced immersive gaming experiences by integrating complex game mechanics with seamless web interfaces.

Software Developer *@ Kare Kaise* — APR 2025 – JUNE 2025
Implemented scalable technical solutions and new feature sets to improve platform performance and user engagement.

PROJECTS

Vibe — AUG 2025 – PRESENT
Rewires campus discovery with a verified, hyperlocal, privacy-first social layer that intelligently connects students by skills, interests, mood, and intent.

Decentralized IP Tokens — OCT 2025 – PRESENT
A decentralized IP engine that turns creative works into liquid tokens with automated, compliant royalty distribution.

अभ्यास — NOV 2024 – PRESENT
An innovative AI-centric EdTech solution that transforms knowledge into effective results for competitive practice.

CloudGuard AI — MAR 2025 – APR 2025
Why Manage Cloud when they can manage themselves.

FloatChat – AI Platform for Ocean Data — JUL 2025 – AUG 2025
(Prototype) Conversational AI for ARGO datasets (temperature, salinity, currents).

DevForge — DEC 2025
AI-powered collaborative developer platform with real-time code execution, multi-language support, and integrated DevOps tooling.

NexIDE — FEB 2026
Browser-based IDE with multi-language execution, file management, and a modern developer experience built from scratch.

Nexus URL — APR 2026
High-performance URL shortener with analytics dashboards, custom aliases, and optimized redirect latency via caching.
